

Richard Miller

Technical Advisor

Telephone: 952-833-1427 ext. 14
Email: rmiller@hrstinc.com

Rich joined HRST during the spring of 2006 as a fabrication advisor and boiler inspector. During the off season, Rich creates/edits project specifications and field procedures, reviews quality related project documentation and occasionally provides project estimating and quotation services.

- ◆ **Third party fabrication inspector for PennDot**—As a resident third party inspector for PennDot, Rich monitored the various fabrication activities related to the Pennsylvania Department of Transportation.
- ◆ **Major OEM for Gas Turbine HRSG's**—Rich began his 17 year career as a code welder and was eventually transferred into the quality department in the fall of 1998. After obtaining his certified welding inspector certification in 1999, the remaining years were consumed traveling both international and domestically as outsource QA providing services in the US, Canada, Holland, China, Korea, Egypt and Indonesia.
