Boiler Training Seminars for Gas Turbine HRSG's & Fired Boilers

Typical Client Training Topics

- HRSG Fundamentals
- Supplemental Firing
- Liner & Casing Construction
- Flow Accelerated Corrosion
- OEM Drawing Review
- Drum Swell
- Circulation
- Cycling
- Outage Inspection Focus Areas
- Preventive Maintenance Schedule
- Potential Problem Areas
- HRSG Purge

HRSG Academy Topics

- Gas-Side Components
- Layup & Storage
- Control Room Performance Analysis
- Tube Repair
- Evaporators
- Inspection Tasks
- HRSG Chemistry
- SCR Catalyst
- Duct Burners
- Superheaters, Reheaters & Preheaters
- Economizers & Preheaters
- Cycling Issues
- Common Failure Mechanisms

HRST can provide on-site custom training seminars for owners & operators.

The focus of the training is to help O&M personnel to understand HRSG design and to avoid or detect typical problems.
