

Robert Tretter

Staff Designer

Telephone: 952-833-1427 ext. 29
Email: rtretter@hrstinc.com

Rob joined HRST in October 2006 as part of the product sales and design team. Within this team, he provides consultation, design and documentation for retrofit projects relating to HRSG's. Rob also participates in research and development of new product and upgrades solutions for plant sites.

- ◆ **Major OEM for Gas Turbine HRSGs**—for 15 years as a plant designer, Rob assumed lead role in design and layout of components comprising HRSG's. He adhered to company and customer specifications and used thermal and structural design data to create or oversee creation of design drawings for detailers, fabricators and vendors for use in manufacturing.
- ◆ **Van Sickle, Allen & Associates**—As a drafting technician, Rob created working drawings for steel, concrete and wood structures and equipment layouts. During his 3 years, he also performed material estimates and prepared bid packages.
- ◆ **Minnesota Army National Guard**—For 5 years, Rob's military occupational specialty was a technical drafting specialist in which he accomplished board drafting and design as well as material estimates and surveying.
