

Kevin Morales

Staff Designer

Telephone: 952-833-1427 ext. 18
Email: kmorales@hrstinc.com

Joining HRST in 2004 as a staff designer, Kevin consults, designs, and document retrofits projects relating to HRSG's including casings, liners, and suggested piping schemes. He is also a part of new product development, in which he recognizes problem areas that are common among plants to develop creative and sound solutions thereby improving plant maintenance. Kevin also is a technical advisor for the installation of HRST products.

- ◆ **Major OEM for Gas Turbine HRSGs**—Kevin designed and produced documentation for fabrication of OEM products including code calculations, design drawings, fabrication drawings and field assembly drawings. Within the nine years as a staff designer and a design drafter, Kevin gained experience as field TA for simple cycle projects and walkway vendors.
- ◆ **Brown-Minneapolis Tank**—as a drafter for six years Kevin prepared shop detail drawings and field installation drawings of various parts for large above ground and smaller below ground storage tanks.
