

Victor Ferris, P.E. Systems Engineering

Telephone: 952-833-1427 ext. 23
Email: vferris@hrstinc.com

Victor joined HRST in October of 2006. Some of his duties include performing boiler inspections, conducting FAC studies and root cause failure analysis, as well as providing training to plant personnel.

- ◆ **Major OEM for Gas Turbine HRSGs**—Victor held two positions during his seven year tenure. As a mechanical engineer, he was responsible for performing the detailed thermo/hydro design of recently sold HRSGs. More recently, Victor performed the upfront design of HRSGs as a senior applications engineer in the sales department.
